Bells University of Technology
Ogun Expected in 07/2027

Bachelor of Science -Computer Science

- Relevant Coursework: Data Structures, Digital Logic Design, Discrete Mathematics

PROFESSIONAL SUMMARY

Frontend Developer with 2 years of hands-on experience building responsive and accessible web applications using Next.js, Tailwind CSS, and TypeScript. Skilled in turning Figma designs into pixel-perfect components, optimizing performance for both mobile and desktop, and integrating Firebase for real-time data handling. Known for clean, maintainable code and close collaboration with design and backend teams. Always learning new technologies and staying updated on frontend trends.

WORK EXPERIENCE

Inventors Community

01/2025 - PRESENT

Front End Developer

- Utilize Next.js, TypeScript, and Tailwind to create visually appealing and responsive web pages that meet client requirements.
- Code using Next.js, TypeScript, and Tailwind to develop features for both mobile and desktop platforms.
- Work closely with UX/UI designers to translate their designs into functional web applications.
- Utilize version control systems such as Git to track changes throughout the development process.

PROJECTS

Bloom & Root - Plant Shop Website

Tech Stack: Next.js, TypeScript, Tailwind, Firebase.

Deployment: GitHub Pages, Vercel

Key Features & Achievements:

Designed and developed a **plant-shop website** with features including:

- A sleek, responsive design.
- A contact form that goes straight to your email.
- Fast loading and SEO-optimization.
- Used **Firebase** to store user data.

Netflix-Inspired Website - Movie Website

Tech Stack: Next.js, TypeScript, Tailwind, Firebase

Deployment: GitHub Pages, Vercel

Key Features & Achievements:

- Developed a **fully responsive movie website** with a dynamic movie grid and webpage routing.
- Integrated **Firebase Authentication** for user sign-up/login and **Firestore/Firebase Database** to store user preferences.
- Fetched movie data from **TMDB API** and implemented smooth transitions/animations using CSS and React libraries.
- Deployed the app live on **GitHub Pages**.
